PROFILE

I am a spontaneous and driven person who is good at coming up with creative solutions to challenging issues. I always look for better alternatives and push my limits.

Hobby's:

Baking and cooking

Singing and songwriting

Boardgames

EXPERIENCE

Technical design internship

Studio Melle Koot | Jan. 2019 – jul. 2019

At design studio Melle Koot I further developed Nockstone into a technical toy for children. I also conducted research into biodegradable materials for a design lamp line.

Graduation internship

SE Factory – EMDR kit | Okt. 2019 – jun. 2020

At SE Factory I created a proof of concept for redesigning their Classic controller.

Product Designer//Production Manager

SE Factory – EMDR kit | Jun. 2020 – today

I design, develop and improve products for the EMDR kit.

My tasks include:

- Developing concepts.
- Designing housings with SolidWorks, with a focus on design for manufacturing and assembly.
- Collaborate with hardware/software designers for electronics development.

My tasks as a production manager are:

- Managing the production team
- Quality management.
- Optimizing procedures.

I am also involved in process optimization and documentation for the ISO 13485 certification of the EMDR kit.
